## ABOUT ME 🧑

I am deeply captivated by exploring the field of software testing, and I am determined to leverage my experience and continuous desire for learning towards this goal. I am fascinated by the role of software testing in enhancing the quality of products, and my determination is to make significant contributions in this domain.

## SKILLS 💻

- Postman 8/10
- Jira 10/10
- Test Case creation 10/10
- Cypress 7/10
- Selenium 8/10
- Python 8/10
- Software testing knowledge 8/10
- BDD/cucumber
- MySQL databases 9/10
- Git/Github 8/10
- JavaScript 6.5/10

## LANGUAGE

- English B2
- Romanian C2

## EDUCATION 🎓

**Mechanical Engineer | Gheorghe Asachi  
Technical University of Iași  
Oct 2020 – July 2024**

- Knowledge of mechanics

**QA automation/manual | IT Factory bootcamp  
Sept 2023 – Feb 2024**

Activities and societies: Automated Software Testing:

- Introduction to programming : Python;
- Principles of OOP (Object Oriented Programming);
- Design patterns in testing;
- Defining and implementing a web page automation framework;
- Selenium Webdriver;
- Another approach for the framework: BDD (Behavior Driven Development);
- API level testing (Application programming interface)

Activities and societies: Manual Software Testing:

- Introduction to testing
- Test design Technique (static testing, dynamic testing)
- Risk based testing
- Working with Jira and zephyr
- Basic of MySQL
- API testing/postman
- ITSQB preparation

Bachelor University Gheorghe Asachi  
University of Iasi  
Oct 2020 – July 2023

- Module Psychopedagogical

Bachelor Technical College 'Ion Creangă'  
Targu Neamt  
Sept 2020 – June 2022

- Management Assistant in the Economic Field

## CERTIFICATION 🏆

 [Software testing automation and manual](#)

 [Introduction to Databases \(MySQL\)](#)

 [Cypress –Modern Automation Testing from Scratch + Frameworks](#)

 [Preparing for the QA \(Software Testing\) interview](#)

 [Programming Foundations: Software Testing/QA](#)

 [Software Testing Foundations: Test Planning](#)

 [JavaScript Unit Testing Course](#)

## NON-TECHNICAL SKILLS

- Adaptability
- Collaboration
- Stress Management
- Creativity and Problem Solving
- Understanding User Needs

## PERSONAL PROJECTS 📌

### Automated Testing Project for FashionDays Website

23 APR 2024 – 12 MAY 2024

- Developing and implementing automated tests according to specified requirements.
- Implementing a Page Object Model (POM) to make tests more modular and easier to maintain.
- Integrating automated tests into the Continuous Integration/Continuous Delivery (CI/CD) process to ensure continuous and efficient testing of the application.
- Configuring Jenkins pipelines for automated test execution and reporting.
- Analyzing and identifying relevant test scenarios for FashionDays website functionalities.

### Automated Testing Project for Flip.ro Website

5 MAR 2024–22 APR 2024

- Designed and executed comprehensive test scenarios to ensure the quality of the website's login and search functionality.
- Verified the login page, covering email and password fields, to authenticate user access.
- Implementing automated tests using Selenium and the unittest framework with python for efficient test automation

## **API Testing project for spotify.**

8 NOV 2023 – 30 MAR 2024

- Develop and execute API tests for Spotify's Web API using Postman and Newman.
- Write comprehensive test cases covering various HTTP methods (GET, POST, PUT, DELETE).
- Identify and document defects found during testing.
- Successfully identified and documented critical defects in the API responses.

## **Database Project**

22 DEC 2023 – 14 MAR 2024

- Created and executed queries to test data retrieval and manipulation.
- SQL (DDL, DML, DQL)
- Designed and created the database schema.
- Implemented CRUD operations.
- Populated tables with realistic data.

## **Guru99 Banking,Testing Project**

6 NOV 2023–3 Feb 2024

- The Guru99 Bank project aims to provide net banking facility to its customers.
- I was responsible for functional testing ,identifying bugs and issues,and collaborating with the development team to resolve them.
- We have followed the Agile framework, followed by all the documents like Test Plan,Test Cases,RTM,Bug Report and Test Metrics,Test Closure.
- Documented 10 issues and resolutions in project management tool such as JIRA
